

# Community Participation Update

June 2018

Don't believe everything you see, the above photo is the real photo of Johann, May, Mark, Taylor, Michael and Kiel staying safely away from the aeroplanes on their "social group" outing to investigate what happens at an aerodrome. (Mark went photo-mad on planes! Plenty more where these came from...)

Speaking of Mark—he has been taking a keen interest on the new police building. He took lots of photos of the demolition and construction. Here he is pictured with the Highway Patrol car.

Nice bread guys! Scotty and Blair rising to the challenge and baking up a storm!

We cant seem to keep Jane away from the sewing machine. She's only just finished her skirt and now she's onto the next project.

This time she's invested in making a vest with strawberry detail. Yumm!

Johann and Michael getting revved-up at the car museum

Geoffrey looking jungle-tastic in his funny hat for fundraising for Children's Mental Health. Some of the funny staff members are pictured as well.

Daniel is up to his boots in work at his volunteering job at Riding for the Disabled . He often has a “barrow of laughs” there.... (sorry—that was a bad one!)

Jane on Pooch Pampering patrol!

Alison and Elana hit the airwaves at Radio Kidnappers, talking about DRC's transition service

Thorunn “strikes” a pose at the Superstrike bowling arcade while Richard shows Roy how it's done
